

Appendix C: Completed/Deleted Mitigation Actions

Completed Actions	Action Description	Completion Details (date, amount, funding source)
Humansville 1.1.3	Locate outdoor storm warning sirens in all areas of population concentration	Siren installed in 2005; covers whole city
Fair Play Schools 1.1.2	Utilize available alert systems to provide storm warning.	School district has an app that allows them to send text messages, FB posts, and website post immediately to homes and work
Fair Play Schools 1.2.2	Work with the schools, human services organizations and businesses to distribute information on hazard risks and resources or methods to reduce risk.	School district has completed prior to plan update.
Fair Play Schools 1.3.1	Promote inclusion of tornado/severe wind shelters (safe rooms) in the construction of new public buildings.	District has partnered with the city of FP to use our HS school, anytime as a tornado shelter. The city council members, police and mayor have keys and security code.
Humansville Schools 1.1.2	Utilize available alert systems to provide storm warning.	Use of School Messenger, District Facebook page and website to send out notifications, NOAA Weather radios in offices, communication with local authorities and dispatch, personal notifications on cell phones to assist in gathering information
Marion C. Early Schools 1.3.1	Promote inclusion of tornado/severe wind shelters (safe rooms) in the construction of new public buildings.	FEMA Shelter Built
Marion C. Early Schools 2.2.1	Promote use of back-up generators for all critical/vulnerable facilities and infrastructure	FEMA Shelter is equipped with back-up generator
Deleted Actions	Action Description	Reason for Deletion
Polk 2.1.2	Educate the public on municipal fire codes	Responsibility of fire departments
Polk 2.1.4	Ensure that new dams are constructed using methods and procedures that comply with the national dam safety hazard reduction initiative.	No future plans in the county for the construction of new dams
Bolivar 1.1.6	Install/replace low water crossing markers where needed.	No low water crossings in City
Bolivar 1.1.7	Develop a warning system for low water crossings and seek funding to implement the system.	No low water crossings in City
Humansville 1.3.1	Promote inclusion of tornado/severe wind shelters (safe rooms) in the construction of new public buildings.	No new public buildings planned or anticipated in the next 5 years
Humansville 1.3.2	Encourage local community organizations to continue and augment programs to provide fans, air conditioners, and winter weatherization for those at risk.	City relies on OACAC for this.
Humansville 2.2.4	Encourage utilities to use underground construction methods where possible.	No desire by City to do
Humansville Schools 1.1.1	Promote and encourage the use of NOAA all hazard weather radios in all homes, businesses, and critical/vulnerable facilities.	District wants to focus on other areas
Humansville Schools 2.2.1	Promote use of backup generators for all critical/vulnerable facilities and infrastructure	District wants to focus on other areas
